

BARRON

1009-AGB

In the first half of the twentieth century, Danish architects attempted to address the issue of glare inherent in electric light. In our Barron family, we apply the solution they came up with—layered, curved shades—to light fixtures with a floral bent. A finely textured black on the outside and a metal finish on the inside, Barron's shades are a visual delight in person. Opal-etched diffusers nested in pairs within each shade further soften and diffuse the light.
