

V PANELS

3091.14

Dangling from a discreet suspension system like jewelry, V Panels employ sleek geometries to create striking compositions. Designed to cast LED illumination both outward and downward, each elongated rectangular shade features ribbing that refracts and softens the illumination. The metal frames of the larger chandeliers intersect and diverge at right angles, while crisp metal caps serve as a counterpoint to the transparent shades. Available in a range of sizes as chandeliers and pendants with Polished Chrome or Brass finishes.
