

# VINES™

3283.27

Organically sweeping curves undulate in flowing vine-like configurations on which illuminated glass seedpods extend from the softly intersecting branches. Available in several configurations as well as custom sizes, Vines can be suspended singularly or in clusters to scale into dramatically large sweeping installations of extraordinary sculptural presence. The glass pods have crushed glass interior surfaces that refract and reflect the LED light at infinite angles producing a luminous radiance from within the smoothly tapered pods. Also available as a Semi-Flush Mount.
